

MAGNA AUTODIBBLER

Automatic Dibbling Machine

The Magna AutoDibbler is an automatic dibbler that solves several problems associated with dibbling. It uses standard interchangeable dibbling boards with the option of using an universal dibble board that allows the user to place dibble cones anywhere on its surface.

Features:

- Reduces worker fatigue compared to hand dibbling
- Dibble hole depth and position are consistent on every tray
- Easy adjustment and fast changeovers from one tray configuration to another
- Can also be used with interchangeable custom-made dibble boards for dibbling small holes for cuttings
- Works with flats, shuttle packs, and most baskets.
- One year limited warranty

Specifications:

- Speed: Up to 950 flats per hour
- Capacity: Up to 14.5" wide and 7" tall
- Available Dibble Cone Sizes:
For Universal Board: 1/2", 3/4", 1", 1.25"
For Custom-Made Boards: 1/8" to 1.25"
- Supported Tray Counts:
For Universal Board: 1 to 36
For Custom-Made Boards: 1 to 288
- Compressed Air Requirements:
3CFM@90PSI
- 115V~AC 60Hz
