

MAGNADIBBLER SD

Semi-Automatic Dibbling Machine
Patent Pending

The MagnaDibbler SD is a semi-automatic dibbler that solves several problems associated with dibbling. It features a universal dibble board that allows the user to place dibble cones anywhere on its surface.

Benefits:

- No need for buying a different, custom made dibble board for each different tray.
- Reduces worker fatigue compared to hand dibbling
- Dibble hole depth and position are consistent on every tray
- Able to be used with hanging baskets
- Easy adjustment and fast changeovers from one tray configuration to another
- Works well with puncher-style transplanters
- Can be used with interchangeable custom-made dibble boards for dibbling small holes for cuttings
- Operates on compressed air, no electricity required
- One year limited warranty

Specifications:

- Available Dibble Cone Sizes:
For Universal Board: 1/2", 3/4", 1", 1.25"
For Custom-Made Boards: 3/16" to 1.25"
- Supported Tray Counts:
For Universal Board: 1 to 36
For Custom-Made Boards: 1 to 288
- Compressed Air Requirements:
3CFM@90PSI
